BREAKPASI.

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the nine properties of well-selected Googo. Mr. Eppe has provided our breakfast tables with a delicately liavored beverage which may awe us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to restait every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may secape many a fatat shaft by keeping ourselves well fortified with pure blood and a properly nourtabed frame. —Civil Service Gasetta.
